Coloured borosilicate glasses

Do you manufacture unique articles from borosilicate glass and like to set colourful accents?

We will make sure that you find the right colours for your products quickly and easily.

For artisans and imaginative hobby artists, GVB - Solutions in Glass offers an extensive range of coloured rods, tubes, plates and pictures for their creative work. We represent the five most important American manufacturers of **coloured glass** with a large stock assortment, which is perfectly complemented by the machine-drawn coloured tubes and rods of our low-priced Colourstar range.

All coloured borosilicate glasses available from us can be combined with each other as well as with clear tubes and rods made of borosilicate glass 3.3.

Use coloured rods to give your works made of clear borosilicate glass a special, individual touch.

We offer you an comprehensive stock range, which you can access conveniently and all around the clock in our online shop.

In our shop, you can also find high-quality coloured soda lime glass rods, which are also compatible with each other and can also be used with other brands, such as Moretti.

Security Instructions

The processing of borosilicate glass requires high temperatures. This leads to oxidation of nitrogen from the surrounding air, the so-called nitrogen oxide. During processing of colored borosilicate glass, gas emission from coloring substances may occur sporadically. During processing of granulates formation of dust cannot be excluded.

We recommend a good room aeration as well as an effective extraction system for the working place to avoid damage of health.

Futher Information

- Please contact us for an individual offer.
- The amount of delivery will be invoiced on basis of the weight (g).
- Minimum order value: 100€ net for orders with an order amount below 100€ net, we charge a handling fee of 20€ net.
